

# Idea

Offline Fun Game Activity:

## Byte Bingo Grid:

Byte Bingo Grid is a thrilling combination of Jeopardy and Bingo, designed to engage participants in a competitive and knowledge-driven gaming experience.

Participants will be divide into teams , depending on the number of participants.

Teams strategically select questions to create winning patterns on the grid, adding an extra layer of excitement to the game.

## Game Setup:

### 1.Byte Bingo Grid:

A 5x5 grid of questions and problems related to computing and we can categorize these with some appealing names like "Programming Languages," "Tech Giants," "Innovations," "Historical Milestones," and "Trivia", etc; to give the idea to the participants about the problems that they can choose. Teams have to choose a problem from the grid and all the teams have to try that problem, whichever team does it first gets point and turn to pick the next problem.

### 2.Strategic Scoring:

Teams strategically choose questions to create lines (horizontal, vertical, or diagonal) on the grid for bonus points.

### 3.Ignition Buzzer Round:

Launch the event with a buzzer round, determining the order in which teams can choose their initial questions from the grid in the next round and only the qualified teams can enter the next round.

# Vision

A game is the best way to learn something new in the most interesting way . It'll help in showcasing the talents of the participants and also in developing team spirit.

# Venue

Venue of the event can be a classrom or lecture hall depending on the number of participants.

## **Budget**

Prizes for the winners and runner-ups of the game.

## **People Needed**

People are needed for organizing the event , members of the club who are experienced and have knowledge in the field of parallel computing and programming can set up the game board from which contestants can choose the problems. Along with game board set up, questions for buzzer round needs to be prepared beforehand and can be done by those who are interested in designing the game.

A host to keep the energy high and guide participants through the Byte Bingo Grid Showdown. Ensure a tech support team is on standby to address any technical issues. A scorekeeper who can track points accurately and announce winners.

## **Publicity**

Social Media : We can use club Instagram handle for publicity of the event .

Flyers and Posters: Design visually appealing flyers and posters to display at different places .
